

DESCALING CLEANER FOR TILES AND TAPS

DESCRIPTION

Removes limescale, hard deposits, yellow stains, oxidations from bathroom tiles. Excellent to remove limescale, clean and polish stainless steel, brass and copper taps.

GEL formulation.

CHARACTERISTICS

- **FAST:** it works rapidly
- **GEL:** it adheres on vertical surfaces

USE

CERAMIC - thanks to the FLEXI bottle - can be also used in hard positions and difficult situations.

HOW

Apply the product onto the surface and if necessary spread evenly with a brush. Leave to work for 5 minutes. Brush and rinse out.

UNDERWATER

Very often yellow and rusty deposits form underwater in the wc. Pour some drops of **Ceramic** directly into the water preferably in evenings. Leave to work from 1 to 8 hours then rinse out.

TAPS AND TILES

Pour a few drops on a wet sponge and rub the surface gently then rinse off immediately and with plenty of clean water. (Stainless steel taps will be immediately clean and polished)

FLOOR

Ceramic is also an excellent floor detergent. Pour about 50ml of product in a 5 lts bucket of water.

cod. **756750** **Bottle Flexi 750ml**

CHEMICAL-PHYSICAL PROPERTIES

Aspect and color	Blue/green viscous liquid
Odor	Almond
Specific weight	1,035 kg/l
