Product specifications

INFO

PERFORMANCE

15 micron of protection – resists up to 600°C – yield of 2.5m per aerosol

RAPID

Dust free and workable after 180 seconds

PRACTICAL

The nozzle can be rotated to dispense vertically and horizontally.

Physical-Chemical Properties

Colour and Appearance

Product in its liquid state

Light zinc liquid

Specific weight

0.78 kg/l

Fragrance

Characteristic

Recommended use

Equipped with a special, 360° valve that guarantees the zinc is completely dispensed, even in different positions. In addition, the dispenser valve has a very useful, rotating nozzle for a complete zinc paint treatment, which envisages 2 crossed coats, 10 minutes apart (horizontal + vertical). Dust free after 180", it finally catalyses within 12h.

HOW TO USE

Shake the aerosol vigorously so the two mixer balls inside mix the zinc powder well with the solvents and bonding resins via. Dispense F93 evenly on the perfectly CLEAN, DRY surface to be treated.

Packaging available

400ml Spray
